### CAMERA READY ADS (CRC)

---

CRC ads arrive in PDF form and are completely ready for placement in the newspaper.

- Ads must be sized correctly.
- CMYK or grayscale color only. If an ad is received in RGB format, it will be converted to CMYK.
- Materials must be less than 10 MB.

The production department does a quick check of these qualifications and can normally fix any minor issues in order to prep the ads for printing. The advertiser understands that:

- an ad not the right size may be slightly adjusted,
- dark or incorrect colors may be converted and lightened,
- overly large or heavy files will be downsized and/or converted for better printing.

### PUBSET

---

Ads that need to be completely designed in-house, from start to finish, are pubset ads.

Clients who request the free design service will need to supply materials for the production department to use in their ads, such as **high-resolution (200 dpi or higher)**, logos, photos and/or illustrations.

Materials should be of print quality. Text and any ad copy must be provided by the client.

- Photos and graphics such as JPG, EPS or TIFF, **must be 200 dpi or higher.**
- Any thoughts or special requests about the ads need to be communicated to your account executive.
- **Text/ad copy must be provided by the client.**
- Email the materials to your account executive or the production department before the closing date.

### PICK UPS AND CHANGES TO PREVIOUSLY-RUN ADS

---

If a client would like to run their ad again, there are a few options:

- **A pick up** is running the exact same ad again.
- **A pick up with change** is a minor change to an ad we have designed within the last year.
- If the pubset ad or CRC ad is more than one year old, it is in the client's best interest to update their materials and send it again. Technology advances quickly, and clients' information and graphics may have changed.
