BUILDING CHARACTER

Identify a news story that raises the ethical question: What builds character?

Find someone in your print and/or online newspaper who shows courage, kindness, perseverance, responsibility or other positive character trait. The person may work hard and/or aim to become more courageous, kinder or more responsible.

Who's the person?

What is she or he doing that demonstrates a positive character trait or shows effort to strengthen his/her character?

SHARE a storyboard or series of drawings with text that shows what a film about the person based on the news story might include and how the film might look.
