SOURCES of WATER

Search the newspaper for sources of water in your community, state, nation and world. Find at least two stories and answer the questions below:

Headline ONE:

What source did you find?

Where is the source located?

How is the water resource used?

Headline TWO:

What source did you find?

Where is the source located?

How is the water resource used?

Locate the water sources on maps.

SHARE what you know or learn about an important source of water for your community.
