WATER'S ESSENTIAL

Water is essential to life.

1. Do you find evidence in newspapers that demonstrates a growing concern over having enough water and/or clean water?
2. What are governments doing to ensure access to clean water?
3. What are individuals doing to conserve water and/or keep from polluting water?

SHARE the results of research about efforts to conserve water and/or clean up streams, rivers and oceans. Discuss what you and your friends can do to conserve or reduce the amount of water that is wasted.
