

IT'S ALIVE!

It's ALIVE For Bill Tipton

(To The Brunswick News)

It's Alive...

The Brunswick News is my daily link to our community. I read it every day because I want to know what is going on in our community, what elected and volunteer organizations are doing for our community and our citizens, what others think about current events in our community (through the letters to the editor... though I sometimes do not agree with the opinions expressed by individuals), what is happening in the sports fields, and who has left this earth.

Having spent 20 years in the public arena of this community before I retired, I find the reporting of *The Brunswick News* to be fair and objective when the news sources are forthright and open. I know how hard it is to report things when a source does not want to be identified but wants information made public. Not relaying unverified items and rumors and not bending to the wills of special interest groups of all types in reporting are two main reasons I continue to read *The Brunswick News* every day.

If I had one wish for the younger generations, it would be that they would "get it" and read the local paper (even if they read it online) to be informed daily about what is going on in their own backyards. I cannot imagine not reading *The Brunswick News* on a daily basis. I would feel like I were on a deserted island.
