

## Sample List of Companies Specializing in Technology to Enhance Worker + Building Safety

### 1. Digital Training and Awareness Programs

- [Interplay Learning](#): VR-based training for HVAC professionals.
- [360training](#): OSHA-compliant digital safety training.
- [Simutech Multimedia](#): Electrical troubleshooting and training simulations.

### 2. Automated Lockout/Tagout (LOTO) Systems

- [Brady Corporation](#): Automated lockout/tagout devices and digital management systems.
- [Rockwell Automation](#): IoT-integrated LOTO solutions.
- [Master Lock](#): Advanced lockout solutions with digital logs.

### 3. Energy Control Procedure Automation

- [Honeywell](#): Automation systems for HVAC energy control.
- [Schneider Electric](#): Energy management and automation solutions.
- [SIS Safety Automation](#): Automated safety systems for isolating hazardous energy.

### 4. Smart Personal Protective Equipment (PPE)

- [Kenzen](#): Wearable sensors for monitoring worker safety.
- [ProGlove](#): Smart gloves with integrated sensors.
- [StrongArm Technologies](#): Wearable devices for worker safety and injury prevention.

### 5. Predictive Maintenance with AI

- [Uptake](#): AI-powered predictive maintenance solutions.
- [SparkCognition](#): AI-driven predictive maintenance for industrial systems.
- [Augury](#): Machine health solutions using AI for HVAC systems.

### 6. Drones and Robotics for Inspection and Repair

- [DJI](#): Industrial drones for inspections in hard-to-reach places.
- [Boston Dynamics](#): Advanced robots for maintenance tasks in hazardous environments.
- [Sarcos Robotics](#): Robotic systems for industrial maintenance and safety.
