Make the move

Looking to relocate to a community that provides the services you need? Well, Long Island is filled with many great communities, but Patchogue is one great place to consider.

The Greater Patchogue area has much to offer, including private and public school education, parks, entertainment and so much more. In today's hustle and bustle, convenience is key. Patchogue is accessible by car, bus and train and with MacArthur Airport just 15 minutes away, air travel couldn't be easier. The busy downtown district is always buzzing with activity like seasonal street festivals for the entire family, unique shopping and restaurants featuring cuisine from around the globe.

First, let's find you a home. Patchogue provides a number of housing options and realtors like **Coldwell Banker M&D Good Life** broker Ted Gounelas that can help you find a home to suit your individual needs. There are apartment complexes and condominiums for every budget, ideal for those who lack a green thumb and time to landscape and garden. Grand Victorian and Colonial homes are perfect for families wanting some space and a home filled with rich history. Bungalows offer a quaint coziness for simple living while still providing yard space for the kids and gardening.

Ruta Oaxaca

Ruta Oaxaca (pronounced wah-hah-kah) is one of Patchogue's newest restaurants. This is now owner Jose Castillo and his partners, chefs (and brothers) Carlos and Felipe Arellanos' 2nd location, having opened their first restaurant in Queens a year ago. The name? Well that comes from a southern Mexican city renowned for its fine cuisine. The Arellanos brothers became interested in cooking at an early age from their mother from which the menu is inspired from. The owners pride themselves on serving authentic gourmet Mexican cuisine with traditional Moles and, while mainstays, fresh guacamole, nachos and choices of quesadillas are available you must also try "Cochinita Pibil" a taco containing Yucatan marinated slow cooked pork, avocado, salsa verde, habanero pickled red onion and cilantro.....Thirsty? You also must sample the drink menu, the drinks not only taste great but look amazing! Oaxaca has an extensive tequila and mezcal selection with amazing margaritas! See their mouthwatering menu on page 5. They are located at 30 East Main St. For more information call 631-569-2233. Visit our other locations in Woodbury, Astoria or Brooklyn.

CHAMBER OF COMMERCE IDEA MEETS WITH FAVOR ALL ALONG LINE PROMINENT MEN PROMISE SUPPORT

The movement favoring organization of a Chamber of Commerce for the village of Patchogue continues to grow and every business and professional man interviewed has expressed his willingness to help form and support the chamber. Two good statements on the matter follow:

It is up to all of us to help get these things done. A Chamber of Commerce is made up of the business men of the city and therefore should give concentrated action towards anything which would benefit Patchogue. It is not right that we should sit around and talk of the day when we can do something but do nothing today.

of Commerce could handle. It is imperative that these things be taken care of and why not everybody help?

Sheridan Line, superintendent of schools says:

The idea of establishing a Chamber of Commerce in Patchogue is an excellent one.

CHAMBER COMMERCE EMPLOYS SECRETARY

N. R. Garland to Open Executive Office Monday

Chosen from Several Applicants-- Chamber to Mark Village Entrances With New Signs

At the meeting of the Board of Directors, the Patchogue Chamber of Commerce yesterday afternoon arrangements were made to employ N. R. Garland of New York as managing secretary, he to take up his duties next Monday. The present contract is for a trial period of two months, after which, if Mr. Garland and the officials of the chamber are mutually satisfied with the arrangement he will be engaged for the remainder of the fiscal year, to next April. He is to receive a salary of \$4,000 a year.

Mr. Garland was selected from among several applicants. He is a man of 35, of Scotch-English ancestry a graduate of the Minneapolis public schools, the University of Minnesota and the Biltmore Forestry School, Asheville, S. C. He started business with the Studebaker Corporation at Detroit, owned and conducted a tire wholesaling firm in Denver and was secretary of the manufacturer bureau of the Denver Civic & Commercial Association for a year during a period of extensive reorganization and activity.

He returned to Detroit and managed the Garland Sales Company distributing tractors and cars, and was last a district manager for Bear Tractors Inc., in New York. Mr. Garland is a married man with two children.

The directors have instructed the publicity committee to have three electric signs erected at the entrances to the village, one in West Patchogue one in East Patchogue and one on Medford Avenue with suitable wording to indicate the new Chamber of Commerce.

PATHOGUE NEEDS A LIVE-WIRE CHAMBER OF COMMERCE

The day has arrived when Patchogue needs a Chamber of Commerce every merchant in this village who is awake to the trend of the times must realize that such an organization is essential to the business welfare of the town. Several attempts have been made in the past to keep a Board of Trade functioning, but each one of them petered out. There is no cause for being discouraged, however, and any new body that might be formed could sidestep the mistakes made by the previous organizations.

For one hundred years this place has grown in spite of itself and in spite of any concerted action on our part.

Geographically we are ideally situated, and due to this fact we are at all times have been the natural trading center for the smaller villages and have within a radius of 15 to 30 miles. Hundreds of people come here to do their shopping--they might come in thousands if we went after their business the right way.

The name Patchogue should be advertised all over Long Island and should be done in such a manner that every merchant in this village has and in helping to put it across. There is only one way this can be accomplished and that is to invite every man and woman in business in Patchogue to join together and form a Chamber of Commerce. Put the dues at a reasonable figure, appropriate a substantial sum for advertising Patchogue out to town, and employ a paid secretary. Then do everything in our power to use the capital and labor here.

There are so many fine things that could be accomplished that space in an article dealing with this question cannot be taken, but we mention a few such as a real honest-to-goodness, all-year-around train service from here to the city and back, a zoning system, the car parking problem, and the building up of our shore fronts for the public.

These are a mere handful of questions to be dealt with sooner or later and the sooner the better.

Another phase of the proposition that appeals to the business man is the suggestion that an organization should be formed. Every so often some slick gentleman appears in town with a stock-selling proposition to put across at him go before an investigating committee of the Chamber of Commerce and prove to them that his stock is a good investment for people to buy.

Educate the public to phone the secretary of the Chamber of Commerce and ascertain whether the many outside charitable appeals are worthy as him, that or the other thing is a. k. before they sign their name on the dotted line.

A Chamber of Commerce is a non-religious, non-partisan organization at place where the bond of good fellowship is extended by Protestant, Catholic and Jew to one another and better relations grow out of the meetings, between competitors. It is a clearing house where ideas are exchanged and blunders are learned by petty mistakes.

If any of the merchants or, in fact, any one in Patchogue believes in a Chamber of Commerce, let them get together for a Chamber of Commerce here, we will be glad to help them in any way we can.

Enthusiasm Reigns in Gathering of 250 Men and Women Monday Night

The Chamber of Commerce talk with which the village has been filled for several weeks past turned into a most interesting and profitable session at the meeting Monday night when the attendance of 250 citizens witnessed the Supreme Court room and the things were addressed to the audience. The speaker, Mr. Ackerly, expressed his confidence in the Chamber of Commerce and its ability to do great things for the village.

In the vibrant tapestry of Patchogue's cultural landscape, collaboration is the golden thread that weaves together the fabric of progress and growth. From revitalizing neighborhoods to fostering artistic expression, every stride forward is propelled by the power of partnerships, both large and small.

Nowhere is this spirit of collaboration more evident than in the remarkable journey of the Patchogue Arts Council (PAC). As PAC continues to blossom, it stands as a testament to the transformative potential of community-driven initiatives and the enduring bonds forged through shared passion.

At the heart of PAC's journey lies the cherished tradition of the annual sculpture garden installation—an endeavor made possible through the unwavering support and partnership of one of its most cherished collaborators: the Patchogue Garden Club.

Established in a humble vacant lot in 1996, the Patchogue Garden Club emerged with a singular mission: to cultivate and maintain a thriving public garden while imparting wisdom on design, gardening, and maintenance to the community. Over the

years, this dedicated group of individuals has not only beautified the village through various planting projects but the very same members have also played an integral role in the founding and sustenance of PAC.

The synergy between the Patchogue Garden Club and PAC has been instrumental in the realization of the sculpture garden exhibitions since 2014. Through their shared vision and tireless efforts, these two organizations have transformed a corner of Patchogue into a vibrant hub of artistic expression, enriching the community's cultural tapestry.

As PAC prepares to unveil its 10th Annual Sculpture Garden exhibition from June to October 2024, anticipation is high for

another season of awe-inspiring artistry. This year MoCA L.I.ghts will also feature a special projection highlighting the garden architecture and illuminating the Fall foliage.

Located at the intersection of South Ocean Avenue and Terry Street, Patchogue's sculpture garden serves as a beacon of creativity and community engagement—a testament to what can be achieved when like-minded individuals come together in pursuit of a common goal.

Plaza Cinema & Media Arts Center

The Plaza Cinema & Media Arts Center is a non-profit, 501(c)(3), community-supported organization located on Terry Street, one block South of Main Street in Patchogue.

The Plaza's mission is to celebrate the power and magic of film as an art form and as a medium for multicultural exchange and social responsibility by:

- Screening quality American mainstream, independent, and foreign films, and opera and theatre productions captured live from world stages.
- Presenting curated film series and festivals with guest speakers.
- Offering field trips, media literacy workshops, and classes in filmmaking and animation.
- Contributing to the economic and cultural development of the community.

The Plaza's operational model brings cultural and educational programming under one mission-driven roof and is fiscally supported by a combination of admission and tuition, philanthropic funding, grants, business sponsorships, and community contributions.

The Plaza, a single-screen cinema with 68 seats, is open to the public year-round. Depending on the day of the week it is open from 9:30 A.M. - 11 P.M.

As an Art House Cinema on the South Shore, The Plaza has a cultural, historical, and financial impact distinctly different from commercial multiplexes. People who come to see a film or take a class also eat and shop locally. The Plaza has become a hub for intellectual enrichment and a breeding ground for discourse and cross-pollination of ideas. Film production courses provide creative outlets for children and teens, while media literacy workshops create a vital synergy between education and the arts. The Plaza's existence attracts potential residents and enhances the quality of life of those

who already live in the area.

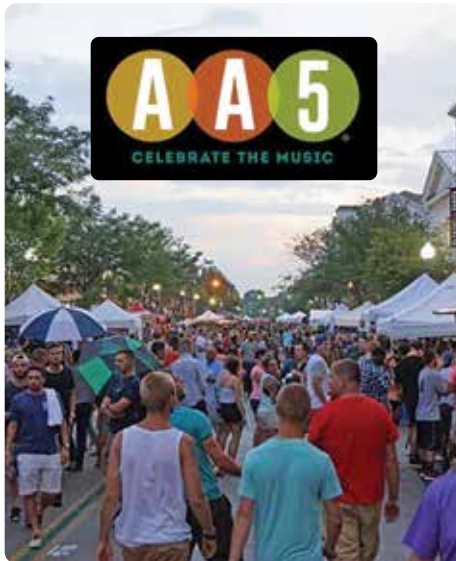

For up-to-date movie showtimes and everything else that The Plaza has to offer please visit www.plazamac.org. For movie showtimes, you can also call the box office at (631) 438-0083.

Unlocking the Door to Homeownership: Navigating the World of Mortgages

For many, owning a home is the ultimate dream, but navigating the world of mortgages can feel like a daunting task. Understanding the basics can make all the difference in turning that dream into a reality.

A mortgage is essentially a loan to buy a home or other real estate. It allows individuals to make a down payment and borrow the remaining amount from a lender, usually a bank or mortgage company. The loan is then paid back over time, typically with interest.

One of the key factors in securing a mortgage is your credit score. Lenders use this score to assess your creditworthiness and determine the interest rate you'll receive. A higher credit score can lead to better loan terms, including lower interest rates and monthly payments.

Additionally, understanding the different types of mortgages is crucial. Fixed-rate mortgages offer stable monthly payments over the life of the loan, while adjustable-rate mortgages may start with lower rates but can fluctuate over time.

Working with a reputable mortgage lender or broker can simplify the process. They can help you explore loan options, understand terms and fees, and guide you through the application and approval process.

While mortgages may seem complex, with the right knowledge and guidance, homeownership can become a tangible and achievable goal for many.
