Jessen's Heating and Cooling

Jessen's Heating, Refrigeration Inc. & Electrical adding on an addition to their facility.

St. Bernards Catholic Church

St. Bernards Catholic Church is having some construction done to put in parking to help members have access closer to the door and for drop offs.

Sydney Olivia Photography

I would like to introduce you to Sydney Maynard, owner/photographer of Sydney Oliva Photography. Sydney has taken the leap of her love and passion of photography to a higher level when she decided to open a studio in May 2023 on main street in Redfield.

While in high school, at the young age of 14, she acquired an injury that ended her ability to play in high sports and that's when her mom bought her a camera and a new passion erupted.

After hours of learning and practice shooting photos of her family and friends in sports events and other activities, she decided to start her business in February of 2020.

Sydney currently attends South Dakota State University where she is pursuing Advertising & Marketing. She has one year left until she graduates. You can currently get in touch with her on her web page at sydneyoliviaphotography.com to schedule a session or

if you have any questions you may want to ask.

The web page also gives you her bio, portfolio, investment, and information on The Rep Program.

Sydney will be looking forward to hearing from you and setting up your next photography session. We would like to Welcome Sydney Maynard to Redfield with her photography business and are looking forward to her many years in her business adventure.

Redfield Clinic

EMS Center

The ground breaking for the new EMS Center was on May 9th. On May 25th the pouring of the foundation started and on June 27th the pouring of the floor took place. A lot of work has been going on at the location and everyday you can drive by and see the building going up quickly.

ATTENTION: Effective Monday, July 17th, barricades will be setup in the Redfield Clinic parking lot to prepare for construction of the new Clinic entryway. All Clinic patients and Pharmacy customers will need to enter through the main hospital entrance. Drive-up pharmacy pickup will be available along the curb on the east side of the Clinic building (signs posted). Hospital patients are asked to park in the ER parking lot and access the building through the ER entrance during construction due to the decreased parking spaces in the main parking lot. Volunteers will be available inside the building to help patients and visitors find their destination. Follow the signs!

Community Memorial Hospital will be needing volunteers starting Monday, the 17th for the Clinic remodel. They are needing volunteers for helping escort patients to the clinic/pharmacy, or outreach locations. They have 2 hour blocks set up but if you can even help for an hour, any help is appreciated. Jenna Dawson will be the primary contact person and she can be reached at the Clinic on her direct line of 605-475-7561. If she does not answer, they ask you to please leave a message and she will return your call. Volunteers will be needed July 17th through the month of October. CMH would appreciate your consideration in volunteering and look forward to hearing from you. Thank you!

Road Construction

It's a Maze!

Redfield Residents are currently driving in what seems like a maze! Every where you think you can drive, seems to be blocked off with a road closed sign or they are working and have large equipment that is being used in the projects that are underway.

Make sure you have plenty of time to get where you want to go, and plenty of patience! Some access roads that may have been open before may not be now. There are businesses that have delivery trucks that need to be parked in some access areas, , but if they were not parked to deliver what is needed, we wouldn't get the things that we went shopping for.

This may be a pain in our sides right now, but down the line, we all benefit from this in the future. Keep that in mind before any anger sets in, and remember its always a good conversation starter, just like the weather.

Be Safe, Be Kind and most of all Be Patient!

“Any change, even a change for the better, is always accompanied by drawbacks and discomforts.” — Arnold Bennett

SBS Lumber & Hardware

Last year about this time SBS was in some transitioning with owners, name changes, supplies, additions and building projects taking place. It didn't take long for things to come together and get the supplies they added to their business.
